Whether it be Israel, Africa, China or the western Church, it does not take long to realize that tradition is an important foundation on which to operate one's life. Even those who say that they are "non-traditional" have established their own new tradition. The issue, therefore, is not whether believers in Yeshua have traditions or not, but what the approach should be to these traditions. This book is about certain traditions and customs that come directly from the Bible. Join us in this exciting exciting Journey!
